

# TAIWO SULAIMON

Senior Frontend Developer | React & Angular Specialist

📍 Lagos, Nigeria | 🌐 **Open to Relocation (Freelancer)**  
✉️ [tsulaimon96@gmail.com](mailto:tsulaimon96@gmail.com) | 🔗 [LinkedIn](#) | 🖱️ [GitHub](#) | 🌐 [Portfolio](#)

## PROFESSIONAL SUMMARY

Senior Frontend Developer with **6+ years of experience** delivering scalable, high-impact web and mobile applications across diverse industries including fintech, automotive, SaaS, and advertising. Proven expertise in **React, Angular, and TypeScript** with a strong track record of **remote collaboration** with diverse teams.

### Key Strengths:

- ▶ Founding engineer experience with AI-powered products
- ▶ Expertise in building reusable UI libraries and design systems
- ▶ Strong performance optimization skills (30%+ improvement track record)
- ▶ Proven ability to ship complex features fast — from concept to production with minimal supervision
- ▶ Experience with microservices architecture and API integration
- ▶ Fully remote-ready with excellent English communication skills

## CORE TECHNICAL SKILLS

### Frontend Technologies

React, Angular, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Ionic Framework.

### Backend & Integration

Node.js, REST APIs, GraphQL, WebSockets, Microservices Architecture

### Development Tools

Git, Webpack, Docker, Azure Functions, CI/CD (Jenkins/GitHub Actions)

### Testing & Quality

Jest, Cypress, Karma/Jasmine, Unit Testing, Cross-browser Compatibility

### Collaboration

Agile/Scrum, Jira, Confluence, Figma Integration, Remote Team Leadership

## PROFESSIONAL EXPERIENCE

### Internet Brands (MH Sub I, LLC) Remote

Frontend Developer

June 2024 – Present

- **Modularized Angular UI libraries**, improving code maintainability by **65%** across health and legal SaaS products
- **Delivered features 20% ahead of schedule** through efficient component architecture and reusable design patterns
- **Created state-management services** to streamline data handling and improve application performance

- Collaborated with distributed teams across multiple time zones, demonstrating strong remote work capabilities

## Resplash, Inc. Remote Contract

Frontend Developer

September 2023 – May 2024 (9 months)

- **Built comprehensive React-based design system**, accelerating feature development by **50%**
- **Implemented secure login flows** and real-time dashboards using GraphQL for data synchronization
- **Created state-management services** to streamline data handling and improve application performance
- Established development best practices for growing engineering team

## Mecho Autotech Remote

Frontend Developer

March 2021 – June 2024 (3 years 4 months)

- **Led UI development** for fleet-management platform using React and Angular frameworks
- **Automated report generation system**, reducing manual errors by **60%** and improving operational efficiency
- **Developed live GPS tracking components** with real-time updates, significantly boosting customer satisfaction
- Architected scalable frontend solutions supporting 1000+ fleet vehicles

## Sterling Bank PLC Remote

Frontend Developer

January 2022 – March 2023 (1 year 3 months)

- **Engineered loan application interfaces** in Angular and React Native, increasing completion rates by **25%**
- **Applied AOT compilation and lazy loading** techniques, achieving consistent **sub-2-second load times**
- **Enhanced accessibility and responsiveness** in collaboration with UX team, meeting international standards
- Integrated with core banking systems using secure API connections

## Buylike Dealers Remote

Frontend Developer

January 2021 – February 2022 (1 year 2 months)

- **Developed Angular frontend** for used-car marketplace with advanced filtering and search capabilities
- **Reduced Time to First Byte (TTFB) by 35%** through performance optimizations and caching strategies
- **Coordinated API design** to handle 10,000+ monthly vehicle listings with efficient data management
- Implemented real-time pricing updates using WebSocket connections

## Adspace.ng

Frontend Developer

July 2019 – December 2020 (1 year 6 months)

- **Built campaign-management platform** for businesses to create advertising campaigns across multiple media types
- **Enhanced performance and accessibility**, driving **30% increase in user engagement**
- **Managed full-cycle design implementation** from concept to deployment with cross-functional teams
- Developed responsive interfaces supporting multiple ad formats and campaign types

## Brentech Coding & Robotics

Frontend Developer

September 2018 – June 2019 (10 months)

- **Created interactive web modules** with drag-and-drop interfaces for educational coding tutorials
- Developed user-friendly interfaces for robotics programming education platform
- Built responsive learning management system components

KEY PROJECTS

Rekka.ai

Founding Engineer

- Architected AI-driven reminder system specifically designed for ADHD users
- Built NLP-powered personalization engine with multi-channel follow-up flows achieving <1% task-drop rate
- Implemented machine learning algorithms for adaptive user behavior patterns

GetCrib.co

Founding Engineer

- Co-founded and architected comprehensive real estate platform connecting property seekers with landlords
- Developed full-stack solution using React frontend and Node.js backend with advanced search algorithms
- Implemented geolocation-based property matching and integrated payment processing systems

Fleet Management Platform

Mecho Autotech

- Developed comprehensive vehicle management system supporting auto-diagnosis, tracking, and reporting
- Created automated report generation reducing manual processing time by 75%
- Integrated real-time GPS tracking with interactive dashboard and alert systems

EDUCATION

Bachelor of Business Administration (BBA) - Artificial Intelligence

Nexford University - Washington, DC.

April 2024

National Diploma - Computer Science

Yaba College of Technology, Lagos.

January 2021 – July 2023

National Diploma - Civil Engineering

Yaba College of Technology, Lagos.

2014 – 2017

AutoCAD Certification

Globaltechs Computer Institute, Lagos.

2017

CERTIFICATIONS

HIPAA/HITECH Privacy for Business Associates (HH-101)

Principles of Secure Coding

Supervised Machine Learning with Logistic Regression & Naïve Bayes

HackerRank Certified Angular Developer

HackerRank JavaScript Certificate

HackerRank Problem Solving Certificate

HackerRank CSS Certification
